DEPARTMENT OF ENERGY  
Federal Energy Regulatory Commission

York Haven Power Company, LLC

[Project No. 1888-038]

Notice of Availability of Environmental Assessment

In accordance with the National Environmental Policy Act of 1969 and the Federal Energy Regulatory Commission's (Commission) regulations, 18 C.F.R. Part 380, the Office of Energy Projects has reviewed the application for a temporary variance from flow requirements for the York Haven Hydroelectric Project, located on the Susquehanna River in Dauphin, Lancaster, and York counties, Pennsylvania, and has prepared an Environmental Assessment (EA) for the project. The project does not occupy Federal lands.

The EA contains the staff's analysis of the potential environmental effects of the temporary variance and concludes that licensing the variance would not constitute a major federal action that would significantly affect the quality of the human environment.

The EA may be viewed on the Commission's website at <http://www.ferc.gov> using the "elibrary" link. Enter the docket number (P-1888) in the docket number field to access the document. At this time, the Commission has suspended access to the Commission's Public Reference Room, due to the proclamation declaring a National Emergency concerning the Novel Coronavirus Disease (COVID-19), issued by the President on March 13, 2020.
